Product Features

The all new HORIZON 3000 Series Automatic Level is a heavy duty quality product which packs many other improvements over its predecessor.

Firstly, it has better **Crystal Clarity Optics** which gives consistently clear focus over much greater distances.

Secondly it has **Superior Dual Compensator Stability**, for improved accurate measurements.

Thirdly it now has a **Full Metal Casing** made to withstand the rough handling and occasional accidents in the field.

Unmatched in it's class, this widely used instrument has proven itself against **superior, even against pricier Auto Levels** in the market.

HORIZON 3000 Series Specifications	3025	3028	3032
Image	Erect	Erect	Erect
Magnification	25x	28x	32x
