HITTING THE NAIL ON THE MARK

Standard Nails

Often during surveying, Nails are required to Mark certain spots. HORIZON has range of nails for this very purpose.

| Survey Nails Specification | No. 01 | No. 1 | No. 2 | No. 4 | No. 5 | No. 7 |
|----------------------------|--------------|----------------|-----------------|--------------------|----------------|--------------------|
| Size D x H x L (mm) | 6 x 3.7 x 29 | 9.2 x 4.5 x 44 | 15 x 7.3 x 50.7 | 20.2 x 6.5 x 104.7 | 20.4 x 7x129.9 | 20.5 x 7.1 x 202.3 |

Premium Nails

HORIZON now offers a choice of Premium Nails made in Japan. This range of nails are made for more strenuous use such as Markings in concrete and other hard surfaces.

HORIZON's new Carburized nails are verified in laboratory statistics.

In various tensile, bend and strength test, these nails have been proven to

perform up to 24%-31% better than other nails, in an mean average taken over a few test.

Call us to enquire on the sizes available.

| Carburizing Nail Comparison (Average taken over a sample of 3 nails.) | Normal Nail | Carburizing Nail | Percentage Improvement |
|---|-----------------------|-----------------------|------------------------|
| Tensile Strength | 65kgf/mm ² | 65kgf/mm ² | 24% |
| Bend Test (bend with 40mm Nail to be cracked) | 537kgf | 705kgf | 31% |
| Strength Test | 2969kgf | 3857kgf | 30% |
